

Now, You Can Help Every Student with Diabetes Succeed!

An Essential Addition to Your School Health Resource Shelf

Now, you can help ensure a safe learning environment and equal access to educational opportunities for all students with diabetes by putting this important guide from the **National Diabetes Education Program** to work in your community.

Designed to Empower School Personnel, Parents, and Students

Developed and endorsed by leading diabetes, pediatric medicine, school nursing, and education groups, the guide empowers school personnel to help meet students' routine and emergency diabetes care needs throughout the school day.

The Right Tool at the Right Time

With its user-friendly tips and tools and thorough list of resources, the guide offers health care providers, school personnel, parents, and students a team approach for working together to carry out the student's diabetes care plan.

You'll find these important tools:

DIABETES PRIMER AND GLOSSARY with diabetes information from A to Z

ACTION STEPS for all key school personnel, parents, and students so that everyone knows what's expected of them

SAMPLE MEDICAL MANAGEMENT AND EMERGENCY ACTION PLANS for health care providers and school personnel to adapt to meet their needs

REVIEW OF SCHOOL RESPONSIBILITIES UNDER FEDERAL LAWS including Section 504 of the Rehabilitation Act, the Americans with Disabilities Act, IDEA, and FERPA

COPIER-READY HANDOUTS designed to be distributed to all school personnel—with **no** copyright restrictions.

Complete online version available at www.ndep.nih.gov.

Feel free to download a copy and create a link to the School Guide on your own website. For additional NDEP resources, visit www.betterdiabetescare.org and www.diabetesatwork.org.

FIRST COPY IS FREE.
